

Article No. 5017300XB

Film type: CAST Linear Polyethylene Stretch Film.
Hand Pallet Wrapping Film.Cling inside.
Transparent natural.
>50% Plant based Resin.

Dimensions: Width 500 mm +/- 5%
Gauge 17 my +/-10%
Length 300 m +/- 2%
Roll weight 2,60 kg +/- 5%
Film weight 2,34 kg +/- 5%

Core Core diameter 50 mm
Length 525 mm

Storing Store in a dry place away from solar light.
Recommended temperature: 10 - 40° C.
Recommended humidity: 40 - 80%

Packaging materials

Primary: n/a.
Secondary: Currogated Cardboard Boxes
Tertiary: Wooden Pallet, PE topsheet, PE Stretch Film.

Copolymer: Copolymer: LLD/LD Polyethylene. No content of post-consumer recycled material or pre-consumer recycled material (according to ISO 14021:1999) Non-biodegradable. >50% Biobased (Carbons from natural sources). Please recycle as PE-04.

Reach. LDPE/LLDPE film are not considered Substances of Very High Concern (SVHC) in the framework of REACH. Non of these substances is present in a concentration above 0,1 %. (SVHC List of candidates for authorization per 17/01/2022)

Tecnical Data:

Property	Value	Unit	Test
Yield point (1	10	MPa	ASTM D882
Tensile Strength (MD)	50	MPa	ASTM D 882
Tensile Strength (TD)	20	%	ASTM D 882
Ultimate elongation	340	g	ASTM 1709
Peel Cling	125	%	ASTM D-1003
Pre-Stretch	150	%	ASTM 2457

Typical Values; not to be construed as specification limits.

Waste handling The simple structure of polyethylene with its carbon and hydrogen atoms ensures that Carbon dioxide and Water are the sole combustion products. The film can be recycled to 100 percent.
